

CORPORATE GOVERNANCE

Malaysian Code on Corporate Governance (MCCG) Gap Analysis

EXECUTIVE EDUCATION
ADVISORY SERVICE

Define | Align | Transform

Is your Board fully prepared to demonstrate meaningful alignment with the MCCG - or are hidden gaps exposing you to regulatory and reputational risk?

- Would your governance disclosures withstand regulatory or investor scrutiny?
- Are your Board practices evolving with the spirit of the Code — or relying on boilerplate statements?
- Can you clearly show evidence of how your governance framework drives long-term value creation?

We support Boards and senior leadership in moving beyond surface-level compliance. Our MCCG Gap Analysis provides a structured, evidence-based review of board practices, oversight mechanisms and disclosure readiness - identifying vulnerabilities that may not be visible through routine reporting processes.

Our approach stress-tests governance structures against both the letter and the intent of the Code, ensuring that alignment is demonstrable, defensible and strategically integrated.

What you receive

- ✓ MCCG Alignment Scorecard: A clear, visual benchmark of your current standing against the Code's Principles and Practices.
- ✓ Disclosure & Oversight Risk Assessment: Identification of structural, reporting and governance vulnerabilities.
- ✓ Prioritized Recommendations & Action Roadmap: A phased, board-level action plan to strengthen alignment and effectiveness.
- ✓ Board & Senior Leadership Briefing: Executive-level presentation of findings, implications and strategic next steps.

Our value proposition

We transform the MCCG from a disclosure obligation into a framework for governance resilience and long-term value creation. Designed with the upcoming MCCG 2026 in mind, our analysis transforms the MCCG from a disclosure obligation into a practical framework for strengthening governance systems, enabling boards to identify, anticipate and pre-empt governance risks.

We are able to assess emerging priorities related to the board's accountability for AI governance, ethical issues arising from AI and digitalization, and sustainability assessments.

Expert delivery

Our advisory engagements are delivered by an experienced team and guided by corporate governance subject-matter specialists. This ensures that our methodologies, recommendations and outputs meet the highest board-level expectations, regulatory benchmarks and stakeholder scrutiny standards.
